

# On Demand Services

**Did you know...**

The health and safety service can now provide a 'On Demand' training service. These courses can be booked to be delivered at your establishment and can be for up to 20 delegates per session depending on the course. (we do recommend a 8 to 12 delegates minimum per session)

Most arrangements can be catered for and can be discussed in detail upon enquiry. Please see below the details of courses currently available through this service.

## Courses Currently Available:

**Working at Height:**

This course has been developed for teaching staff and learning support assistants who put up displays and will include the practical and safe use of access equipment that may be needed in the class room and around the school.

**Evac Chair training:**

This course comprises of a practical session that will include Safety briefing, fire alarms, welfare, minimum fitness requirements, presentation on Evac chair and its use, demonstration of use on stairs, opportunity for delegates to practice this individually (this training can only be booked if the hosting school has a maintained Evac Chair of their own).

**Manual Handling:**

This course is aimed at staff who lift heavy loads, for example, midday meals supervisors, staff taking deliveries and will focus on safe lifting and include the opportunity for individuals to practice moving and handling inanimate loads.

### Fire Extinguisher training practical:

This course will be a live demonstration on the proper use of a Fire extinguisher.

### Personal Safety:

This course aims to help you deal with difficult and aggressive parents/visitors and your own personal safety.

### Display Screen Evaluation for Managers:

This course is for the DSE risk assessor; To have a better understanding of how to assess workstations.

### Accident and investigation;

This course is designed for Head Teachers and other school staff who are responsible for completing the manager's review and investigating accidents/incidents that occur in your school. Includes the necessary steps in accident investigation, uploading incident documents and witness statements.

## Contact us for a quote!

For those that purchase our service via an SLA and have access to the West Sussex Services for Schools (WSSfS), why not give our Health and Safety Training programme a read. There you will find all our training information and guidance.
